DEAFNESS CAN BE CURED!

COOPER'S ETHEREAL OIL.—A prompt and lasting remedy for *DEAFNESS*, also for pains and discharge of matter from the Ears.

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery

This valuable Aetherial Medicine is a compound of four different Oils, one of which, the active and principal ingredient is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of Deafness

Persons who have been deaf for 10, 15 and even 20 years, have been permanently cured by using this Oil. In fact, so numerous and so emphatic have been the testimonials to its efficacy, that the Inventor claims for it the distinction of an Infallible Remedy in all cases, when the Ear is present in its normal condition.

DR. WARREN'S

SARSAPARILLA, TOMATO AND WILD CHERRY

PHYSICAL BITTERS,

At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a safe, speedy, and effectual remedy for *Scrofulous, Mercurial and Cutaneous Diseases*; Jaundice, Indigestion, Dyspepsia, Biliary disorders, Liver Complaints, Costiveness, Weak and Sore Stomach, Ulcers, and running Sores; Swelling of the Limbs, Pain in the Bones, Tumors in the throat, Rheumatic affections, Salt rheum, Erysipelas, bad Humors, Eruptions on the face or body, Cancerous sores, King's Evil, Chronic Catarrh, Leucorrhœa, debility, headache, dimness, sallow complexion, and all those disorders which arise from the effects of Mercury, or from an impure taint in the blood, no matter how acquired.

The extract here presented is prepared after directions given by the celebrated Dr. Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated, entirely vegetable, and very likely destined to the aim. The change which it produces in the condition and tendency of the system is quick and permanent.

As a Spring Medicine for purifying the blood—strengthening the weak and hardy, and vitalizing all consumptive habits, the Sarsaparilla, Tomato and Wild Cherry Bitters are entirely unrivalled.

Prepared and sold by DAVID P. BRADLEE, at the *Magnolia Drug Store*, (Magnolia of Boston,) 120 Washington street, Boston. deposited in this office and which have excited much attention, and at the request of several persons we give a brief statement of the articles and of some of the circumstances connected with them, which render them highly interesting by association.

No 1. A *Lance* of the regiment of Guadalajara. It was used in the charge made against Col Harney's Cavalry, by Gen Torrejon, in the battle of Buena Vista. As it was found in the body of the gallant Harney, it is supposed to be one of those by which he lost his life.

No 2. An *embroidered leather shot* which was thrown into the American lines at Buena Vista from the battery of the "Battalion de San Patricio," (St. Patrick's Battery,) commanded by the deserter Riley. This battalion was subsequently hung near Chepultepec.

No 3. A *Mexican Sword* (*the short sword*). It was used at the battle of Buena Vista, but was taken at Encarnacion where our light troops went in pursuit of General Santa Anna after the battle.

No 4. A *Mexican Order Box*, taken in the field of Buena Vista by the gallant Captain Albert Pike of Arkansas, and by him presented to Captain Carleton.

No 5. A *Bowie Knife*, which belonged to John James Audubon the Ornithologist and was by him presented to Capt Carleton. It was carried in the battle of Buena Vista.

No 6. A *Tipstaff* or short club. This was the staff carried in the battle of Buena Vista. It was carried by Bugler David Newman, Company "A" 1st Regiment of Dragoons, and was used against a Mexican reconnoitering party, by direction of Capt Enoch Steen 1st Dragoons, just before the battle commenced on the twenty second of February.

No 7. An *Antique pistol*. This was purchased of a Pastor (shepherd) on the Santa Rosa mountains, by Capt Carleton.

No 8. Several *Mexican Grape shot* fired in the battle of Buena Vista.

No 9. A *Mexican lance*.

No 10. A *Mexican bottle lid* and cross.

No 11. *General Jose Urrea's Journal* of the campaign in Texas and the surrender and butchery of Col Fannin's command.

No 12. A *Mexican powder horn*, elegantly ornamented.

The sanguinary conflicts and the brilliant achievements of the battle of Buena Vista are destined to be remembered as long as history shall last, or bravery be extolled.

These relics by being associated with that memorable battle possess a growing interest and we are happy to say that Capt Carleton has placed them in our hands for the purpose of presenting them to the city.

☞ In the House of Representatives on the 17th inst, Mr Giddings introduced the following resolution, for the reasons set forth in the preamble:

Whereas, on Friday last, three armed persons engaged in the domestic slave trade, entered a dwelling in this city and each only armed with one man employed as a waiter in a boarding house of several hundred of this city, and, in the presence of his wife, gagged him, robbed him of money, and with loaded pistols forced him into one of the upper rooms of this city, from which it is reported he has since been dispatched for the slave market at New Orleans.

And whereas said colored man had been employed at said boarding house for several years, and had become well and favorably known to members of this house, had married a wife in this city, and under a contract to purchase his freedom for the sum of $100, had, with great industry, paid that sum within about $60.

And whereas outrages like the foregoing have been of common occurrence in this District, and are sanctioned by the laws of Congress, and are extremely painful to many of the members of the House, as well as in derogation of humanity. Therefore,

Resolved, That a select committee of five members be appointed to inquire into and report upon the acts aforesaid, also, as to the propriety of repealing such acts of Congress as sustain or authorize the slave trade in this District, or to remove the seat of government to some free State.

In presenting the resolution, Mr Giddings said he would aver that the facts stated therein occurred within sixty rods of this Capitol. He demanded the previous question on the adoption of the resolution.

The whole of this villainy was enacted within an hundred rods of the Capitol of the nation and although as it is, there is no violation of law for it is in strict accordance with, and under the protection of the laws of the United States. Mr Giddings proposed an inquiry into the character of those laws, and the proper remedy for the outrages they authorize. And against this inquiry so simple and natural, three Locofoco members from Maine voted. Frank lin Clark, David Hammons and Hezekiah Williams. Three out of the seven representatives of Freedom who voted that the Capital should ever be made a place for the buying and selling of human beings, voted that laws which sanction such wrongs as this deserve no remedy or investigation even, as from Maine, poor Locofoco ridden Maine.

The representative from this district, was among the minority who the yeas and nays were called.

☞ Accounts from Washington make it quite certain, we think that the Whigs will not consent to go into the presidential campaign without having a National Convention for the selection of their candidates for President and Vice President. The friends of Mr Clay are sanguine of success if he will consent to accept a nomination and it may be expected that before many weeks, or perhaps days, a call will issue from the Whig members of Congress for a Whig National Convention. Whenever such a call shall issue it will no doubt, meet the hearty approval of the Whigs generally. Every State will probably be represented in such a convention, and the candidates of its selection will be supported by the entire strength of the Whig party, and will be selected, such at least, is our opinion.

☞ A gentleman of Middletown, Conn has received a letter from New Orleans stating that the body of Col Hanson, with those of Col. Scott and Capt Thompson, had been placed on board the ship Windsor Castle, bound for Boston, and much cooled from New Orleans on the 4th inst. Col. H. a body as well as his effects were under the immediate charge of his orderly sergeant, McGregor.

your walks a dandy who treats particular attention by the singularity of his exterior, being a little more fantastically dressed and a little more savagely bearded than the rest of his tribe, you may set him down for an American.

Not all the Americans who reside here, however, are of this description. Among them are several artists of established reputation, whose studios are not the least popular of the sights and pastimes of the place. Mr G., than whom the modern sculptor has a higher notion of his art, or has studied it more profoundly, is now employed on a group intended for the capitol at Washington, which I cannot but think will be more generally and justly appreciated than his last great work.

What chiefly drives the English to Florence is the cheapness of living, which enables men of moderate fortunes to dwell in the medium, and at the same time, to maintain a style which only the richer class of their country men can indulge in at home. This advantage of cheap living they are doing their best to neutralize by introducing English notions and English extravagances. Still, Florence is cheap for the English as the—cheap on any score, for permanent residence although the transient visitor finds but little difference in that respect between this and nearly other cities of the continent, especially in Germany. But Florence combines with the charms of living the beauties of nature and the relics of art in such measure, and within such compass as scarcely any other city in the world can afford. How far these may operate as inducements with the English it is difficult to say. No people pursue their things more eagerly or sacrifice, and no people seem to enjoy them less as things. Every Englishman above the rank of a *pedestrian* is a *tourist*. With Murray in their hands they trouble over the continent, expect diligently whatever is in the books, and spare no pains to effect an equal of everything notable. But the *Bridge* and nameless like way in which they do it, these mighty tourists are always at the Englishman described by Goethe, in Rome, who hunted one evening that he had despatched twenty churches that day.

After an experience of five weeks at his season of the year, I am prepared to believe all that is said of the climate and sky of Italy, although I am told the weather is unusually fine for the season. For more than three weeks not a cloud was to be seen in the heavens, excepting a few that did duty in sunset, as clouds of state in crimson and gold livery, contrasting the bland day to bay rest. Can this be November? I asked myself I could mostly, with this unbroken sunshine, this balmy golden days? November! synonymous elsewhere with sunless and gloom! November! with a sun pouring down from every hedge, and the perfume of roses in the air, and no thought of fire on the hearth, or of cloaks in the street? Then came here or four days rain, the commencement, as I supposed, of a long rainy season. I thought, "winter is now coming fairly," but now the weather was as bright and warmer even than before. And so it has continued ever since. What wonder that we know not the mountains, and we have now that combination so enchanting, at winter in the lovely and summer all around. You may judge of the effect of such a climate on a New Englander, who treats such an unwelcome proper as I am at writing. As for example:

NOVEMBER IN FLORENCE.

I know not what I can spell that binds the fleeting year
With Poetry Power in this Lovely vale?
The sighing zephyr, Winter November year
Is wafted on Mild Archer this to seal
Valdarno's broad scenery is lost in mist
The room persists in oblivion in its spray,
Brown Autumn reaches the incense breath of May,
And Bobolinks bought with summer cheer
What sterling charm pels the season's way,
Where yet the heart holds its subject sphere?
Great memories make eternal summer here
Let nature's charms succumb to slow decay,
Green with new children's tune, *Fiesolan* flowers
alway.

I have not yet been to Vallombrosa. I should have gone there first, but dear Milton's sake, were it not that the joint attractions of an inn in the hospitality of the monks, for a night's lodging. Perhaps when it arrives, I may assure the reader with him "Meanwhile there are other and nearer haunts which also

"The Etrurian shades
High overarched embower"

and where I begin to meet the solemn genius of Milton as the *of generous* mood of his mighty muse. Moreover I have been offered to the "top of Fiesole," which is shades embower and which commands a magnificent view of the vale of Arno. I was there the other evening at sunset. A sunset never to be forgotten! I have never witnessed the great phenomenon in such perfection. As I sit, valley had been sown with enthusiasm, the windows of the thousand villas which environ Florence flamed and flickered in the level sun. The snow crowned Apennines in the distance blushed their to swell from on high, and in the foreground, the stupendous dome of St Mary of Flowers seemed to swell and dilate as it condensing that the Cross as symbol which crowns its summit the last thing touched on by the expiring ray. It was one of those spectacles, such seasons which make one mistrust a distinction between the inanimate organization and nature in which it is set, as if the sensations were for weak and dull for the subtler influences of the material creation, as if quicker senses were needed to educe the unknown beauty that lay behind the beautiful which our poor organs apprehend.

Above all, my dear feet never fail, to tread, whenever they are opened to the public, the green aisles of Boboli. This is the name given to the extensive gardens connected with the Pitti palace, the city residence of the Grand Duke of Tuscany. Fancy Mount Auburn without its sepulchral character and its associations, with deer and the depredations, set down within the walls of a city, so that you pass in a few minutes from the crowded thoroughfare of the street, to the thick gloom of secluded walks,—imagine this, and you have a idea of Boboli. There is the same beautiful combination of greenery and gloom, only that the green in this case is that of the cypress and the laurel, and the marbles have derived their form and mission from the masters of the chisel, Michael Angelo among the rest. The origin of the name Boboli is unknown; perhaps it has the same etymology with bobolink, for the place, even at this season, is canorous with the music of birds.

A pleasing feature in the but dear life of the Italian cities is the roasting of chestnuts in the streets. At every turn you come upon one of these culinary fires surrounded by a crowd of hungry expectants waiting to receive the portion in due season. It was a matter of surprise to me at first how people having such evident marks of extreme poverty could indulge in such luxury cheap as it is. But I have since learned that the chestnut in Italy is not a mere luxury but an important article of food with the poor or classes constituting as it does a greater amount of farinaceous matter in proportion to the price, than any other comfort. The mill used for the purpose is the *macrina* which differs in size and flavor from the *castagna*—the chestnut common with us. I have the figures of an English mill. At the street roasting establishment employing persons, of whom the one prepares

☞ Mrs Kemble on Rome, the cathedral of Florence, which dates as and to exceed in extravagance that of St Peters.

Notwithstanding the cheapness of living Florence abounds with beggars, some of whom are able-bodied persons who seem to have adopted this profession as the design of lively hand be at ease to their taste, and some to whom are cases of real distress. One of the latter class occasionally strays into the *cafe*. It is curious to note the different reception he meets with from the different nations represented there—the Englishman never gives. His first answer to such application is an impatient negative, he second a threatening demonstration. Then the supplicant moves on and goes the Yankee still he stands in front of the white-aired dreamer and patient, uncovered look to speak the Gentleman.

And there his prayer is generally answered. That look of hunger is an argument which the German cold in results, whether backed by the not *Ho fame* of the Italian, or the rider *Mich hungerts* of his own tongue. And the Germans are that the German has screw enough for his own necessities, having come to Italy not for pleasure, but for study, while the Englishman has his hounds and his horses, and costly equipments of all sorts. The Yankee wears splendid "turn out" covers you with dust as you walk in the *Cascine*.

The standing question put to the stranger in Florence is "Which picture do you like best" or rather which picture best, for no one pretends to question the unapproached superiority of the Chair-Madonna in the Pitti gallery. But the Chair-Madonna, wonderful as it is, fails far short in effect of the Sistine at Dresden. As to the second best picture, the votes are divided. The Cleopatra of Guido is a great favorite.

A Bigalow by Titian, differing widely from that in Venice, but equally worthy of the great master, hangs by Guido's Cleopatra. A Sybil or Endymion by the same hand, Correggio's Holy Family, other pictures by Titian, some by Andrea del Sarto, &c., perplex still further the doubtful choice. But what is the secret of that fascination which the Fornarina exercises on all who come near her. It is not her beauty, for it might that beauty is unquestioned, it is an inferior order of beauty and bears no comparison with the Madonna hung around her. There is something displeasing even in the utter earthliness of that countenance which I never looked upon without wondering how the delicate and soaring spirit that conceived those Madonnas could ever have delighted in it. And when I turn from the portrait to Raffael's own face in the saloon of the Robbia, pure and refined his expressive and noble aspect, I find it impossible to bring together these opposite natures, of which the female needs only a different costume and calling to represent an able-bodied woman, and of whom the man might easily be made to personify the most sensual of mortals. It is not her beauty, but the unfeigned reality which Raffaelle throws into his portraits, that gives to the Fornarina its power. The reality in this case is absolutely oppressive, overwhelming. I could no more feel myself alone with that portrait in my room than I could with the creature herself in bodily presence beside me. I was really glad when I saw at the first glance yesterday, to find the picture gone, with the customary "*Copeiat*" in its place.

But what a thing it is to have constant access to two such collections as the Pitti and the Uffizi. I divide the greater part of my time between them, and I think I have found the true secret of my pleasure. The American comes to Europe with a vague idea, generally, of seeing what it is that he must see. The wise of the old masters will tell him what he will but give time enough to the *to* consumption.

Here I am at the end of my letter, and have said nothing of Santa Croce and the Chapel of the Medici, and the house of Michael Angelo, and a dozen other lions which a letter from Florence ought to expected to describe. Well, it is too late to supply those deficiencies now. I gave you what is uppermost in my thoughts at the moment, and refer you to the guide books for the rest.

Yours affectionately,

F. H.

Political Bargaining.

It has been announced by nearly every press in this State, and has yet been unquestioned, that Mr Moor, the recently appointed U S Senator pledged himself not to be a candidate for an election by the Legislature, to fill that station.

We do not see the propriety of the Governor's asking, or accepting, or the appointee's agreeing to, any such pledge as seems generally to be understood to have been the condition precedent of Mr Moor's appointment. If he be a suitable man for the position he holds, there is no propriety in his being placed under any pledge that may debar the representatives of the people from electing him thereto, or deprive the people of his services if they prefer. When such *bargaining for office* becomes a common practice, it bargains to put a man in office for a given period on the avowed condition that he will bargain in favor of those who put him in office, for a period beyond, is it not manifest, that politics have become a species of gambling offensive to the purity of popular institutions? Doubtless the people, and the press of the State to look silently upon such a proceeding *will they not inquire who have been parties to it?*

We know this arrangement is unhappy with the frequent predicts of some of the aspirants for the vacant Senator-ship—but, we have in-

which woman maintains her sovereignty. Heaven did not give to woman an impulsive and persuasive order of the spirit; it did not give them a sweet voice to be employed in scolding. The sweetest tempered woman always exercises the most entire and powerful sovereignty.

PAIN IN THE SIDE AND BREAST, HEADACHE, &c.—Wright's Indian Vegetable Pills are a certain cure for every description of pains; because they purge from the body those morbid humors which are the direct cause of the above disagreeable complaints, but of every malady incident to man. From three to six of said Indian Vegetable Pills taken at night on going to bed, will in a short time give relief, even in the most intense sufferings, and perseverance, according to directions, will certainly restore the body to a sound state of health.

Wright's Indian Vegetable Pills also aid and improve digestion, and therefore give health and vigor to the whole frame, as well as drive disease of every description from the body.

Beware of Counterfeits of all kinds! Some are coated with sugar, others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

HIGHLY IMPORTANT NEWS FROM THE SOUTH.

The following extract of a letter is from a very respectable mercantile house dated

Washington, Rappahannock Co, Va May 20, 1846.

Dr D Jayne—Dear sir. Our Mr Jones has been in a very low state of health for more than a year, he has had the benefit of the best medical advice our country affords, and also tried your city during last summer but found no relief. On the 8th of April last, we purchased a half dozen bottles of your Tonic Vermifuge, and a half dozen boxes of Sanative Pills. Through carelessness in packing the orders in a dry goods box, one half the Vermifuge was broken. Mr Jones commenced with the Pills, and after taking a few doses felt a decided improvement. The three bottles of Vermifuge which came safe to hand, brought him, he thinks, not less than ONE THOUSAND WORMS, and perhaps many more. He is now in better health than he has been in for years, and we begin a few more bottles of your Vermifuge and Pills will effect a permanent cure. All our physicians have entirely mistaken his case, Prof Gibbs has been of your city, at the head. Mr Jones is most anxious to get more of your Pills and Vermifuge, as soon possible.

Respectfully J B JONES & CO.

WISTAR'S Balsam of Wild Cherry.

We have but unfrequently called attention to this article in the columns of our paper, and we have done so with the full confidence that it was a good one, and deserving the patronage of the public. We have had a chance to witness its effects upon some of our friends, which in addition to the high encomiums passed upon by our brethren of the press, not in puff puffs but in honest earnest statements, from having derived a benefit themselves, makes us desirous of advising all those who have occasion to resort to a remedy for pulmonary affections, to avail themselves of it. We have too much confidence in Mr Fowle, the proprietor to believe that he would thrust his name upon the community, unless he had full faith in its efficacy—in confirmation of which the proprietor offers a mass of testimony from the most respectable sources. Neither would we be understood as saying that this will cure consumption after it is seated, although it seldom fails to relieve the worst cases. But at this season of the year almost every body is liable to a cold, which if neglected, will lead to fatal results—by taking this medicine we doubt not many lives may be saved.—New Eng Washingtonian, Boston, Jany 2, 1847.

much interest as I do at present, not for the circumstance of having a boy under my care in attendance at one of the schools.

Recently I have felt a desire to address the youth of the city upon a few topics with which I had some acquaintance, in the hope that I might contribute my mite towards saving the rising generation from the doom which awaits all those who violate the laws of their being and of society. It has so happened that I have so far gratified this desire as to address several of the public schools; and if no good impressions have been made, I hope, in Heaven's name, no wrong has been done, and no evil effected.

These feeble efforts of mine to do a little good—even on the way of warning the young against the temptations and snares of life—seem now to be regarded by the writer "Many," as rank offences, for which I deserve public censure. I spoke to the boys of Bangor of the superior educational advantages which they possessed over those of my own country, England; and for this, this Englishman "Many" is ready to demolish me with a grand advertising blow up, and to kill with his canine severity in pronouncing me a traitor to my country.

This choleric of "Many" arises wholly from the impress on which the writer of that article and his particular clique, have, that all I did not tell the youth of Bangor that there was one thing better in the country than in England, they was discovered it out! Some men are so foolish, so lost to self respect as contracted in their views, as to talk with big swelling words of the incomparable excellence, the overflowing richness and the transcendent advantages in all respects of England over the United States—not because those things are true, but because it is the land of their birth—as though they escaped from it as from a pestilence in order to obtain the first necessity of nature—daily bread. These men would shudder at the thought of returning to England to make it their home,—and they pretend, at times, to love this country as well as to have adopted it as better than the land of their birth, but still stand ready to browbeat and deal in falsehood and to coin sanctimonious epithets, because any one is disposed to tell the plain, honest truth of the land of his birth and the land of his adoption.—For my part I should esteem myself debased and wanting in common sense, to adopt a country away home that offered fewer advantages than the land of my birth.

I leave this matter for the present, in this form, and again assure the public that what pretends to be fact in the statement of "Many," is false and what appear as opinions, are the mere overflowing of a narrow and prejudiced mind excited by the meanest envy.

JANUARY—1848.

GRAHAM'S, and Nat Magazines, and Godey's Lady's Book for January, received by

J20 D. BUGBEE.

and Lung Balsam,

have been thoroughly established. Let those who doubt, read the following testimonials which are merely samples of hundreds of the same nature.

CONSUMPTION
AND AFFECTION OF THE LIVER,
CURED,
Of Twenty Years Standing!

CITY OF NEW YORK, July 21st 1847.

This is to Certify that I, Nelson Larrabee, of Jersey City, have been subject to a dry hacking cough and a pain in the side and chest attended with night sweats and general weakness of the system for upwards of twenty years, and pronounced INCURABLE CONSUMPTIVE; neither the advice of eminent physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was rapidly hopelessly to the progress of my disease, when I was persuaded to try Dr. D. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the advice of which, all my symptoms have been removed, and I have been wonderfully restored to the blessings of health, and the prospect of a prolonged existence. In gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate.

NELSON LARRABEE

Sworn to before me, this 21st day of July 1847

of the city of New York.

INFLAMMATION OF THE LUNGS

NEW YORK June 19 1847

DR. VONDERSMITH—I have been subject to a cough, pain in the chest, difficulty of breathing, for many years past. About four months ago I took a severe cold which settled on my lungs. I was unable to attend to my business during the day. I had the spitting that I thought I could not possibly survive so long I could get relief. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white frothy mucous, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I commenced, when I had used it about one week, my cough decreased considerable, which gave me great hopes. I continued with the medicine according to directions, and the result is that I am restored to health, a blessing that I have not enjoyed for years until the present time. Entirely believe had I not made use of Dr. Vondersmith's Medicine I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but justice, in stating the above facts, so that others may shew it to all the afflicted when they call upon you to administer to them. I shall be pleased at any time to converse with the afflicted when they call upon me.

Your grateful friend and humble
JAMES G HENDERSON, No 733 Washington St

CONSUMPTION.

BRATTLE TERRACE, June 10th, 1847

DEAR SIR—I take great pleasure in giving you my testimonial that December I was attacked with a severe cough, pain in my left side, loss of appetite, redeyes, and profuse running of white and yellow mucous. Some time I passed a half pint of mucous, streaked with blood. I was been under the treatment of a dozen physicians, was recommended by Dr. Mason of Philadelphia, to use a blistering tube, I purchased one, I only made use of it for one week, it was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to set up, my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine advertised and very strongly by a person whom he had cured, I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles. I took about 10 to the dozen, and it cured me perfectly sound. Yours, &c., ROBERT WILLEY.

which they will dispose of at such prices during the Winter, as shall defy all competition, and be an object for all who intend to build, the next season, to purchase.

The public should understand that we employ MACHINERY in the manufacture of our articles whereby the work can be better done than by the tedious slow process of hand labor, while at the same time, the processes being shortened, we are enabled to sell a better article, *cheaper*, than those who are wholly confined to hand-labor.

WINTER'S

CANADIAN VERMIFUGE!

A CERTAIN REMEDY FOR WORMS

THE remarkable success of this vermifuge in removing children of worms, has induced many persons to be anxious to obtain it. There have been many cures performed, and testimonials received, that we believe we are perfectly justified in recommending it to the public as the safest and most certain remedy for worms. It is perfectly safe, and may be given to children of any age, without any fear of injury. The symptoms of worms are so well known, that we need not enumerate them. Children should not be allowed to suffer from worms, when a remedy so safe and certain is within their reach. Some of the symptoms are a bad appetite, with a craving for something out of the common course; a dull heavy look, with a pale or sallow complexion; a tender or hard swelling of the stomach; a dry cough, with a hard, quick pulse; a disposition to be frightened at small things; a tender or sore nose; a restless disposition, with a grinding of the teeth; a voracious or entire loss of appetite; a tender or sore throat; a foul breath, &c. &c.

Winter's Canadian Vermifuge is now recommended as a safe and certain remedy for worms of every kind, and we feel confident that it will be found to be all that is represented, and we believe it to be the safest and most certain remedy for worms which have ever been introduced to the public. Where the health of the patient is being always impaired, and yet no worms are discovered, this medicine is prescribed with the best results. We have the testimony of one of our most high standing physicians, who resides in Hartford, Ct., to the effect that it is the most active and prompt in expelling worms, of any medicine he ever met with. We have the most confidence in it because *we know it to be safe*, this is the reason why we have used it well and not use any other.

We have in our possession a number of certificates from physicians and others in the highest standing, which we shall cheerfully submit to the inspection of any person, which establish its efficacy, and recommend it to the public.

READ AND BE CONVINCED

We the undersigned have frequently administered the Canadian Vermifuge, prepared by Dr. John Winter of this place, and have found it a valuable Vermifuge; and believing it to be a safe and efficacious remedy for the expulsion of worms from the intestinal canal, we recommend it to the public.

Hamilton, C. W. Oct. 11th, 1846

New York, March 30th, 1847

Messrs. J. Winter & Co.—My child has been years of age, was taken sick during the night, and was very much affected with worms; during which time we gave her different medicines recommended in such cases, but they produced no beneficial effects. At length we procured a bottle of your Canadian Vermifuge and gave it to her with the result that she passed a large number of worms, more than she has been in the enjoyment of perfect health. From my own experience I can recommend it as a safe and efficacious Vermifuge as but a short time elapsed a fatal result followed the using of some other Vermifuge.

Yours &c. SAMUEL PIERSON, 30 Barrington st.

Highly Important to Farmers.

HAVING purchased the right to use BOYNTON'S Method of making MANURE in all the towns in the County, not previously disposed of, west of Penobscot, and south of Pascataquis rivers, I am ready to sell the same by towns or individual rights, as may best suit purchasers.

When it is taken into consideration that one ton of dry straw can in the space of 90 days be converted into from six to eight loads of rich and common manure fit for corn and potatoes—that green vegetables and turf, can be made into manure of equal value in ten days—and that the high temperature produced by fermentation destroys all obnoxious seeds, this is a valuable method may be considered as forming a new era in Agriculture. That the foregoing results have been frequently realized by Boynton's process I am prepared to show by testimony from scientific and practical farmers in various sections of the country.

Single rights will be sold for the moderate price of four dollars and the purchaser will be furnished (gratuitously) with a book describing the process of making the foregoing together with many other hints of important measures, hitherto unknown in this part of the country. To those who purchase by towns, or to private companies, my terms will be as low as in any other section of the State.

Persons at a distance, by forwarding four dollars (post paid), will be promptly furnished with a single right and book as above.

OF THE

WERE RETAILED in Boston by Gardner Chilson in the short space of six months and a large number have been sold by myself in this city. The Stove is not equalled by any other stove in the United States, as the unparalleled sales it has met will fully bear testimony to its unquestioned merits.

HOUSE KEEPERS should be sure and examine this superior Stove, which has won the admiration of several thousand house keepers the past season. It has more real and useful improvements than all others combined. The fire brick Oven top has proved a boon of great value in absorbing the steam and causing the bread to rise and bake light (equal to the brick oven). The brick oven is far more durable than the iron top. It also equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known. It has an improved arrangement for boiling, roasting &c., so complete. The grate clears itself discharging the ashes into the ash pit. The fires are large and so arranged as not to fill up with clinkers, so that no time is lost in clearing out the fire. The Stove is so constructed as to perform a great variety of cooking, baking and roasting, with the substantial convenience, and many other things, I have not set forth to be.

FOR THE CURE OF Colds, coughs, consumption, for scrofula, scurvy, and all cutaneous eruptions, for bruises, burns, ulcers, sores of all kinds, and general nervous debility.

This celebrated Ointment has been most striking effect upon the blood in cleansing it from all impurities, upon the blood in the joints it removes stiffness, soreness & pain, upon the lymphatic ganglia or glands, promoting the free and healthy secretion of the lymphatic fluid, and thus removes swelling of the glands about the neck, the groins, the axilla or under the arm, about the ear, and all other parts of the body.

This All Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine, and by restoring the tone and function of the urinary organs thus preventing incontinence of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St Vitus's dance, palsy, paralysis, numbness or want of feeling or power of motion from some local or general affection of the nervous system. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the astonishing efficacy of this justly celebrated invaluable and worthily named ALL HEALING OINTMENT. The innumerable persons that have been assuaged, the ten thousand sufferers relieved and cured, and the more than ten thousand hearts which have been comforted and cheered by its unbounded efficacy, testifying to the truth of all, and more than all, herein inserted.

CONSUMPTION CURED!

TRIUMPHANT SUCCESS OF

THE GREAT ENGLISH REMEDY

FOR

COLDS, COUGHS, ASTHMA and CONSUMPTION!

This most celebrated and INFALLIBLE remedy for Coughs, Coughs, Asthma, or any form of PULMONARY CONSUMPTION, is the HUNGARIAN BALSAM of LIFE, discovered by Dr. Buchan, old London, England, tested for upwards of seven years in Great Britain and on the Continent of Europe, and introduced into the United States under the immediate superintendence of the inventor.

The astonishing success of the Hungarian Balsam, in the form of early forms of CONSUMPTION warrants the American Agent in soliciting for treatment the MOST CONSUMPTIVE CASES that can be found in the country. By cases that seek relief from any of the common complaints of the day, and have been given up by the most distinguished Physicians, are confirmed and NOTORIOUS. The Hungarian has cured and will cure the MOST DESPERATE CASES. It is no quack nostrum, but is a valuable English Medicine, and has been established the last.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to cure, but to prevent the consumptive tendencies of the climate, but to be used as a preventive medicine in all cases of colds, coughs, spitting of blood, pain in the side and chest, irritation and soreness of the lungs, bronchitis, difficulty of breathing, hectic fever, night sweats, emaciation and general debility, asthma, influenza, hoarseness, and croup.

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Pain of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr. A. Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this, it is not an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent*. It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, at $1-3 cts per dose, is very mild in its operation, and may be taken in cases of the most acute inflammation without danger. All external applications are in the highest degree disagreeable, inconvenient and offensive; and from the very nature of the disease, ointments in them effective. This Medicine attacks the disease at its source, and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others in all diseases of an inflammatory character, with a deficiency of blood in any particular part or organ, in Inflammation and congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism, this the Best Medicine ever discovered.

IMPURITIES OF THE BLOOD

For all impurities of the Blood, arising from the indiscriminate use of Mercury, or other causes, for all diseases of the Skin, and Scrofulous Affections, in all cases where the blood is powerfully determined to the head, producing dizziness and distress, DR UPHAM'S ELECTUARY is entirely unrivalled.

TO MARRIED LADIES

Married Ladies are almost invariably subject to that painful and tedious disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, loss of blood to the head &c.—The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will ensure an easy time, a safe delivery, and a sound constitution in the offspring.

SURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL Medicine, no Aloes, Croton oil, Gamboge, or other powerful and irritating purgatives. No fear of taking cold will be under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information respecting this Medicine, may be had of Agents, gratis.

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland, Me., March 14, 1847.

Dr Upham—My dear Sir—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the bleeding Piles for 10 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs. My eyes also became affected, and it said I was a martyr to myself. I was obliged to give up my business. I had tried all kinds of medicines, had the best advice the Doctors in Boston and this place could afford, spent much money—and yet submitted to painful operations. I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine. The first I found in relief slightly, still I persevered, and purchased a second, and I assure you when I got half through, I found myself getting well, still I kept on, and now I am a well man. My dear Sir, language cannot express the heartfelt thanks that I am once more restored to health, and now in condition to support my large family, dependent on me.

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON

TO THE PUBLIC.

IT is well known that there is secreted in the stomach a fluid which is called Gastric Juice, that the food when taken into the stomach is acted upon by this Gastric Juice, which is now converted into a pulp substance called Chyme, this passes into the upper portion of the intestinal canal, there becomes mixed with Bile and Pancreatic Juice and is by medical men termed Chyle, a portion of which is in a fit state to be, and is taken up by small vessels called Lacteals, carried into the system, and converted into Blood. The food after being so changed, becomes assimilated, gives nourishment, and supplies the waste of the body, this is the process and effect of Digestion.

How important then is it, that the digestive organs perform their functions properly? There are also intimable sympathies existing between the Dyspeptic Stomach and distant parts of the body, some few of the effects of which are here given—Sick Headache, Nausea and Vomiting, Low Spirits, Despair, Mental Derangement, Irregularity of Pulse, Palpitation of the Heart, Difficulty of Breathing, often leading the patient or his friends to anticipate incurable Organic Disease, all of which might have been prevented by timely attention to Dyspeptic symptoms, and proper treatment. It should also be known that these troubles not unfrequently exist as the effect of disturbances of the Digestive Organs, when the ordinary Dyspeptic symptoms are not discoverable, and should be treated accordingly. The deplorable effect of a disregard to these important truths, it is indeed melancholy to contemplate.

A consideration of these facts, and observation for more than a quarter of a century in Chronic Diseases, their rise progress and end, have led the Proprietor to an anxious inquiry, whether there is in the whole catalogue of medicine a combination which is better fitted than all others to remove the far more common causes of these dreadful maladies. The result of this research, and much experience, is now offered with great confidence to the public in

HOLDEN'S

Alterative and Tonic Mixture,

as the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ, and for removing many troubles attributed to impurity of the blood.

In the cure of Dyspepsia it possesses great power, promoting a healthy action of the stomach and correcting a vitiated state of the fluids concerned in digestion, thus removing the cause of many disturbances which are known to arise from this disease.

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuations, and without leaving behind any unpleasant effect on the constitution.

By its use the Appetite becomes regular and good, Digestion perfect, Sick Headache and many nervous disturbances growing out of imperfect digestion are generally cured, persons of debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine.

Many troubles of children, supposed to arise from worms, are caused by a deranged state of the stomach, and are removed by its use.

Persons both adults and children, left feeble by protracted illness, on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

From CONSTANT GUILLOU, Esq., Attorney at Law, and Notary Public, Philadelphia.

"From personal acquaintance with Jules Hauel—an experienced and fashionable Perfumer and Chemist—I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste—I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the use and purpose they are intended. Dr. Townsend's

SARSAPARILLA.

THE MOST EXTRAORDINARY MEDICINE OF THE WORLD!

This extract is put up in quart bottles, is more cheaper, pleasanter, and warranted superior to any sold. It cures diseases with such rapidity, that it astonishes and delights the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines, while it eradicates disease, invigorates the body. It is one of the very best Fall and Winter medicines ever known. It purifies the whole system and strengthens the person, it radiates new pure and rich blood, it cures by no other medicine. Another grand secret of its wonderful success. It has performed within the past two years, more than 30,000 cures, severe cases of disease, at least 20,000 of which were considered incurable.

More than 3000 cases of Chronic Rheumatism, 2000 cases of Dyspepsia, 4000 cases of General Debility and Want of Appetite, 2000 cases of the different Female Complaints, 3000 cases of Scrofula, 1500 cases of the Liver Complaint, 2500 cases of Diseases of the Kidneys and Bladder, 3000 cases of Consumption, and thousands of cases of diseases of the blood, as Ulcers, erysipelas, salt humor, pimples on the face, &c., together with numerous cases of side and back pain in the head and chest, spinal affections, &c. &c.

Thus, we are aware, must appear incredible, but we have letters from physicians and druggists, from parts of the United States in proof of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place. There are thousands of cases in the City of New York which we will refer to with pleasure and the utmost character. It is the best medicine for the spring of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season. It has never been known to injure in the least the most delicate child.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however obstinate or chronic. The astonishing cures it has performed are indeed wonderful. Other medicines afford some temporary relief; this entirely eradicates it from the system, even when the limbs and joints are drawn and swollen.

☞ Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him.

Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent for an old case of chronic rheumatism, pain in which I have so long suffered, injury occasioned by a special exertion of the Plexus and one bottle to be sure of the cure. I have converted with two of our principal citizens and recommended your Sarsaparilla. SETH TERRY.

Hartford, March 19, 1845.

CONSUMPTION CURED.

Cholera and Strengthen Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Coughs, Asthma, Spitting of Blood, Night Sweats, Difficult or Perfect Expectoration, Pain in the Side, &c., have been the back cured.

Dr. Townsend—Dear Sir, Nearly twenty years ago I took a violent cold which settled on my lungs, affected me severely, indeed, finally I had constant hacking cough, but I never was so much so as I felt at twenty years of age, and my flesh all seem reduced—I breathed with difficulty, I slept with my cough much hard matter and a bad taste in my mouth previous to being your Sarsaparilla. I had taken twenty, indeed, my friends and I felt assured that I would die with the Consumption. I had given the happiness to inform you that I am now after taking three bottles of your Sarsaparilla, I feel a healthy constitution. I believe I am generally and I now enjoy as much better health than I have had for 20 years. I had an agent rub from my neck which I was in so returned. You are at liberty to publish it with my name in the papers, if you desire.

My little girl, who is three years old, I have so cough the whole of last winter. We thought she would die.
